

AIR-OPERATED GREASE PUMPS

Air-operated pumps for dispensing all types of grease short and long distance, for greasing at high pressure. A wide range of models facilitates the choice for application in kit, or for installation in centralized systems.

ART. 0A11195

ART. 0A11174

ART. 0A11148

ART. 0A13061

MANUAL GREASE PUMPS

Portable hand-operated grease pumps for practical and safe greasing anywhere. Available also in pedal version.

ART. 0A14013

AIR-OPERATED TRANSFER-OIL PUMPS

Air-operated double-acting universal oil pumps 18 l/min, also for dispensing high-density oil, suitable for all applications, and particularly for centralized installations.

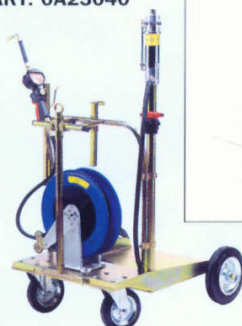

ART. 0A32194

ART. 0A21094

ART. 0A20073

ART. 0A23040

ART. 0A20001

OIL BAR

The Oil Bar (Oil dispenser) is useful for delivering fluids such as oils and/or antifreeze liquid. It can dispense up to three different liquids.

ART. 0A23200

MANUAL OIL DISPENSERS

Manual oil dispensers with double-action delivery pump, suitable for high and low viscosity (density) oils.

ART. 0A24068

ART. 0A24200

WASTE OIL DRAINERS

Oil drainers practical and functional, suitable for gravity draining of engine, gearbox and differential oil from all motor vehicles.

ART. 0A24190

ART. 0A24160

AIR-OPERATED WASTE OIL DRAINERS

The air-operated drainers are ideal for quick engine oil change (by suction with probe) of any motor vehicle.

ART. 0A24291

AIR-OPERATED LIQUID DRAINER

The drainer guarantees quick, handy and clean draining of liquids in general (oil, brake fluid, emulsified oil, hydraulic fluid, antifreeze, depleted oil, etc).

ART. 0A24790

COMBINATION OIL SUCTION/DRAINERS

Oil suction/drainers are suitable for draining the engine oil by gravity or by suction with probe.

ART. 0A25090

ART. 0A25064

PANTOGRAPH OIL SUCTION/DRAINERS

Due to their versatility, these pantograph oil suction/drainers can be used to change the oil of all motor vehicles.

ART. 0A26265

ART. 0A26116

SUCTION DRAINERS/DISPENSER WITH PUMP

The wheel-mounted pump drainers are used to drain and deliver the liquid previously drained.

ART. 0A27180

OIL DRAINERS FOR BOATS

Equipped with long hose, they are ideal for quick engine oil change (by suction with probe) on boats.

ART. 0A24524

EQUIPMENT FOR ANTIFREEZE

Practical and functional equipment for draining antifreeze liquid, by gravity or suction, from all motor vehicles.

ART. 0A24664

ART. 0A24670

HOSE-REELS

The hose-reels are the handiest, quickest, safest and cheapest way of dispensing fluids such as: oil, air, water, grease, etc in the workplace. The hose-reel allows the desired length of hose to be extracted quickly and easily.

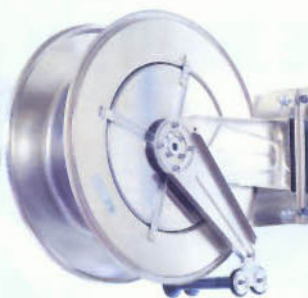

Series 260

Series 420 hose-reels swivelling and fixed

Series 420-510 open swivelling and fixed

Series 510 STAINLESS STEEL AISI 304 swivelling and fixed

TROLLEYS FOR DRUMS

Adjustable and plated trolleys, suitable for carrying drums of 20/220kg in workplaces.

ART. 0A51003

ART. 0A51004

ART. 0A51009

TYRE-INFLATOR

Tyre-inflator suitable for checking and restoring the pressure in any type of tyre. Tanks: 13 and 24 litres.

ART. 0A55010

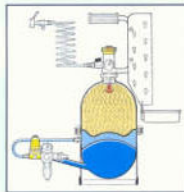

ART. 0A55013

BRAKE/CLUTCH BLEEDING EQUIPMENT

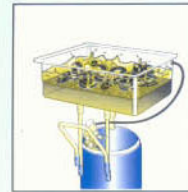

Chrome-plated device, air-operated, suitable for bleeding the hydraulic brakes and clutches of all motor vehicles.

ART. 0A66206

EQUIPMENT FOR WASHING

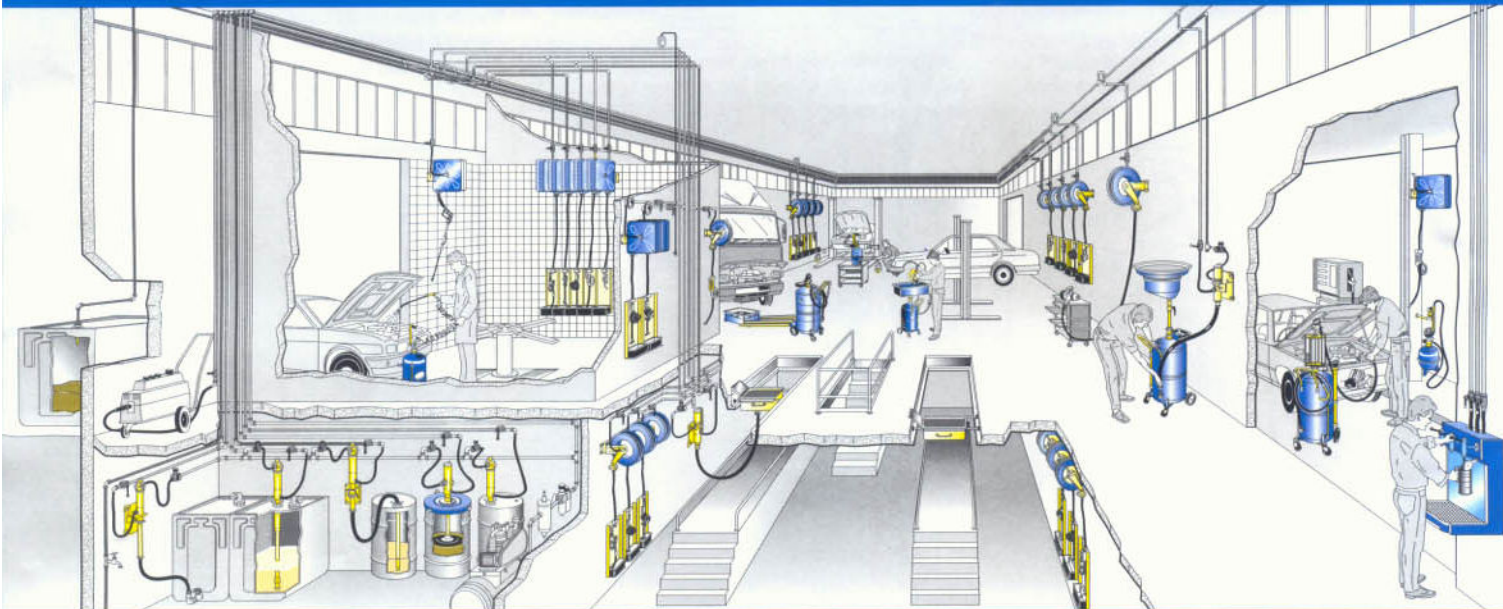

Washing tank for quick washing of parts. Pressure sprayers of detergents liquids, lubricating oils and similar.

ART. 0A60065

ART. 0A61024
